Those not killed immediately are abandoned to fend for themselves (until they are eventually caught too) or are tied to the fence of one of the hopelessly overcrowded shelters .. run by the few small private initiatives that can only barely exist and receive no outside support whatsoever. Many who are initially saved from the "shinters" die of disease, malnutrition and the wounds, that are the result of longterm abuse and neglect - because no ressources exist to properly care for them all. Activists on location pay a high price for their work, are often physically abused and threatened. Often all they can do is to watch the animals being killed .. to document the (continues on next page)

Appeals to abide by that legislation and stop the killings have so far been fruitless. We appeal to the EU commission to urgently intervene with the Serbian authorities - especially in view of Serbia's desire to join the European Union. Serbia has seen some hard times, no doubt. But it is time to move on. Mass graves still pockmark the country .. only these days is those of animals.

I adopted and foster dogs from Small Paws Rescue and I can tell you they more than appreciate being given another chance. I know we help each other. There are safe spay and neuter methods and more need for responsibility of the Serbian people and government, as in every country on this planet. The animals definitely feel pain and suffering, and they are desperately trying to survive under deplorable conditions!!! They did not ask to be born and ask so little out of life. It is OUR DUTY to protect them and to take care of their basic need - AT LEAST. These beautiful animals are trusting of humans and that trust is being absolutely and with no conscience, being exploited. They are being treated like garbage. It makes me sick and outraged. Thw whole world should be and actively stop this massive torture and brutal suffering and killing of theses animals - as even in our own neighborehoods. These animals would die a far less painful death on the streets and at least they would have a chance. Glauben die Menschen dort eigentlich dass dieses Geschehen unbemerkt bleibt ? Das sagt eigentlich aber auch schon alles aus, über die Art "Mensch?" die dort lebt. Sicher gibt es unter Ihnen auch Tierschützer, aber wohl eher eine verschwindende Minderheit. Ein grosser Teil der Bevölkerung ist eher gleichgültig und mit seinem eigenen Leben beschäftigt. Und dann gibt es noch eine offensichtlich nicht geringe Zahl von perversen Tierquälern, denen mit Eintritt in die EU Tür und Tor geöffnet werden, sich wie die Pest in den übrigen Mitgliedstaaten auszubreiten. In diesen gibt es auch jetzt schon genug Tierschutzprobleme, vor denen Sie - die Politiker - auch die Augen verschliessen. Aber warum sollten die Politiker in Serbien auf ein Ende dieser Grausamkeiten gegen Tiere hinwirken, wenn sie Tierversuche, endlose Tiertransporte und Massentierhaltung in ihren Heimatländern zulassen ? Machen Sie also endlich Schluss mit dem (continues on next page)

The first is that animal authorities need to take steps once an animal is caught to minimize disease and destructive behavior. Many of these animals taken by authorities are good pets, but break under stressful circumstances. The second, and most disturbing issue, is the manner of euthanasia (if you can call it that). There is no reason and no excuse to use any of these methods for execution of captured animals. Animal suffering is not acceptable. Surely, Russia is more advanced than this. This is a serious black eye in the face of a country that has much to lose in the eyes of an international community watching their handling of this issue.

It is a terribly high price animals have to pay for being born in societies that are human but definitely not humanistic. It is such a pity that people do not possess the dignity one must have to respect life in all of its forms. Those who care always cry out: "Enough with all this torture and meaningless deaths" but nobody seems to listen. It is such a shame for the essence of human existence, it so very much lowers the value of being human this crime against animals that humans NEVER cease to commit.

2,044. Anita Rutz	Poestenkill, NY	<i>(continued from previous page)</i> These are feeling, caring animals. To treat them as if they were pieces of furniture is physically sickening. I cannot not wrap my mind around the pain & fear they must feel, especially being buried alive? These "people" & I use that term VERY LOOSELY, should put themselves in the places of these animals & imagine how they would feel. THAT WOULD BE WHAT THOSE DOGS FEEL HAVING THIS DONE TO THEM. THERE IS A SPECIAL PLACE IN HELL FOR PEOPLE LIKE THAT & HELL IN ITSELF IS BAD ENOUGH ACCORDING TO THE BIBLE.

In Serbia animals are very rarely pets, and this needs to change. Cruelty is inexcusable in any country, and the people of Serbia need to change their mindset so that animals can be given care, love, and a chance to be loyal faithful friends. I hope this can happen, it will be a huge achievement if we can alter a whole nation.

We politely but urgently ask you to put an immediate end to the HORRIBLE catching and killing of dogs and cats in the City and Region of Zajecar. There is even no respect for the lives of owned sterilised and vaccinated animals. We are aware that the criminal acts described below happen not only in Zajecar, but everywhere in Serbia, notwithstanding the fact that the Serbian dog-catchers go against the Serbian Law. They act unpunished, receiving orders from the local Authorities and therefore are even protected by the same. Federal (central) Authorities turn a blind eye and don't intervene.. How is this possible? How can this be tolerated in a country which pretends to be a modern state? This is CHAOS, Gentlemen! We are sorry to tell you that Serbia is NOT ready to join the European Union. We feel we have to warn our MEPs about the never-ending atrocities happening in Serbia. We don't want a member state where SHINTERS make the Law ! Gentlemen, the International Community of Animal Defenders once again urges you to put an end to the authorised barbarism of which Serbian animals are the innocent, voiceless victims. We are looking forward to your ethical approach of the matter. Thanking you in advance, we remain, Yours faithfully, Mr. Deepak Dadlani

Stop this madness; stand back and take a look at yourselves through the eyes of your battered and powerless victims. You will see your own wretchedness reflected there. It is a wake-up call. Seize the opportunity and turn away from your black-hearted evil. Empathy and compassion are rarer than precious gems...and those who recognize this, rarer still.

4,620. Beatrice Barbu	Craiova, Romania	They are our neighbors, south-west of Danube, I'm deeply concerned of the methods they are using to "deal" with stray overpopulation. They must have been told about "spay/neuter, release" method - the only one capable to reduce the number of strays on long term and in humane conditions. It's not the dogs fault they are so many - only the humans can be blamed, for abandoning them, or letting their male pets to impregnate the stray female dogs - very often, without concern for their lives or the lives of the resulting pupps. Bored, or selfish, or cruel - that's the portrait of the human being responsible for the growth of stray population. And reducing this number by beating the poor trusting creatures to death, or poisoning them, or crushing their bones into compactors, or injecting them with substances that are killing them a slow painful death...SERBIA, WAKE UP - YOU MAKE US SICK. Human beings have to be wise and generous, not cruel and vicious as you are. I hoped you reached further in real civilization. But it seams you're standing on the same place with Romania.

Watching those creatures suffer a life, were death is a grace and just sit on highly paid chairs, is a sign of a very poor and selfish character. It is about time to pay you only for achievements - most of you would run bankrupt, I'm sure. Well, I don't just want to let you know my opinion about your commission, I also want to tell you how much important it is to finally bring laws to avoid the cruelty to animals. Even you never will go to those places, no matter in which country, take a look at the videos, Internet and reports from so many Organisations who are on the side of the animals of this world. Have you never thought, why so many organisations are founded the last years ? The point is not, to make money, the point is: OF COURSE WE SEE THE SICK AND CRUEL DONE TO THE ANIMALS IN (continues on next page)

If resources to home these animals are not available, there are humane slaughter methods which can be found. I have been very concerned by a communication from an animal welfare group indicating that consideration is being given to burning dogs alive in stone ovens. There is a necessity to find more humane methods of killing, if the animals require to be killed, not to introduce more cruel ways, as animals can feel pain as much as humans and they are in these circumstances through no fault of their own. 5,058. Florence Martin	Glasgow, United Kingdom	People in the uK who respect animals are horrified by the reports from reliable sources that stray dogs in Serbia are being killed in inhumane and illegal ways, including burial alive, burning alive and injection into the heart of detergent. In particular Mrs Mila Scepovic in Kraljevo has ordered the burning alive of dogs at the shelter there. Hundreds of caring people in Scotland alone are unable to sleep as we are traumatised by this appalling brutality and the agony these innocent animals will suffer and are already suffering. It is cruel enough that they are shot, but these methods are illegal and the world will not tolerate it. Serbia will have no tourist trade if this continues, as nobody wants to visit a country where such crimes are not brought to justice. You must act immediately.

Enough of manipulations and splitting of countries. I was born in Yugoslavia, Serbian decent,spoke the same language as Croat or Bosnian, had friends everywhere till foreign powers did all this. Can all of you politicians, bankers, leaders see that there is one world we leave in. World is like a human body. If one organ, or two don't function well it's like one or two countries, it effect us negatively all. There is so much unnecessary pain and stress in this free country of Canada and USA as well. The only sin is their existence...that they are alive because of the lack of humans who did not take the proper care for these poor animals! This should be stopped right now! It is just shameful. It's the same if you put a child through this, just so unjustified. They probably treat their children the same way. Wow. Just speechless. Shame Shame Shame. This has to be stopped.
