2 beautiful kitten for adoption in delhi

two girl kittens are up for adoption. they are ADORABLE! they look about 2 months old.

for the moment, they are out on the streets being fed by a caring lady in saket. but this place has so many stray dogs that we all are scared for these little babies. and therefore decided they deserve good homes.

the kittens are not vaccinated as yet, but i'll discuss it with the lady looking after them and see if we can do something about it if anyone is willing to adopt them.

please help us finding them good homes.

for adoption please drop a mail at: nikita.aggarwal99@gmail.com.

cheers!

BANGALORE

There are 2 cute puppies waiting for their Mamma & Papa (just Mamma & just papa would also do)

ROMEO : He is a Lab+Doberman cross. He's black in color, 8 months , fully vaccinated, sterilised and very friendly. Enjoys the company of the 2 legged being, totally pampered and utterly adorable. He's fully trained and know few tricks as well

APU : He is a Lab+terrier (English pickett dog) cross, fawn colored, 4 months fully vaccinated, not sterilised yet. Very playful and enjoys playing. He's also toilet trained.

In case any one of u or any one u knw is interested in adopted them please get in touch with their foster Mom Ms. Palvi (09900235065) . Alternatively, you can also call or mail me for the same.

Cheers,
Aparna

Black for adoption FARIDABAD

dear ma'am it was nice talking to you. in fact I have a pedigree Labra black 4 yrs old. My self and my wife are full time working . Children have grown up and taken up jobs. I have since lost both my old parents. The independent large kothi had to be sold off , now we are living in a rented Flat ie flat no.403 Neelkanth apartt. sec-21-c Faridabad.

We find it very difficult to manage the large dog in a small flat. The Dog is fully trained, well disciplined, friendly and most obedient.

There is no one to look after him. No one plays with him in the lawn . we feel that we are unable to do justice with the dog.

Please let me know if it will be possible for some one or any organisation to adopt my dog .I shall be highly obliged if the Dog is nicely re-habilitated.

Urgent: Injured kitten needs a home in Bangalore

Dear All,

My Bangalore-based friend Shonali has rescued an injured kitten- an adorable, affectionate 3-month-old that's recovering in her house. Am not sure exactly what the injury is but she mentioned that the kitten needs to find a home as it will be hard for it to manage on its own. The last resort is a shelter as it might need special care at least for a little while.

My friend is going off to college this Thursday and will not be able to take care of it after that so please let all your friends in Bangalore know.

Please try and find a home for the kitten and hopefully there will be a happy ending for both the rescuer and the rescued :-)

Puppies in need of a home in Bangalore

These are 4 adorable puppies that live on the street near my house and are in need of a home. Just recently one of their brothers got hit by a car and died a gruesome painful death. They are all extremely chubby and very playful.

However, puppy four is very small and needs some extra nutrition, but is still very playful and adorable. They are about 6 to 8 weeks old. They are on the street at the moment, susceptible to being hit by a car, or by eventually starving to death, when their mother finally stops breast feeding them. They are in need of a good home in Bangalore. Even though they are from the street, I'm sure they will give you all the love and loyalty you need. They have all been together so it would be great if you could adopt them in pairs, so their hearts aren't broken. If you are interested, please do get in touch with me. You can also view more pictures of them on this link:
